

# SAFETY DATA SHEET

This safety data sheet complies with the requirements of:  
OSHA Hazard Communication Standard (29 CFR 1910.1200)

**Product Name:** Idemitsu Hermetic Oil 1234YF, 6 x 250ml Case  
**Product Code:** 32450017-70200C020

**Revision Date:** 19-Aug-2019  
**Revision Number:** 5

## 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

### 1.1 Product identifier

**Product Name:** Idemitsu Hermetic Oil 1234YF, 6 x 250ml Case

### Other means of identification

**Product Code:** 32450017-70200C020

### 1.2 Recommended use of the chemical and restrictions on use

**Recommended Use:** Lubricant

### 1.3 Details of the supplier of the safety data sheet

**Supplied by:** Idemitsu Lubricants America Corporation  
701 Port Rd., Jeffersonville, IN. 47130  
Email: sds@ilacorp.com

**24 Hour Emergency Phone Number:** Within USA and Canada: 1 800-424-9300  
Outside USA and Canada: + 1 703-741-5970  
(collect calls accepted)

## 2. HAZARDS IDENTIFICATION

### 2.1 Classification

This material is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200) and WHMIS 2015.

|                       |                   |
|-----------------------|-------------------|
| Skin sensitization    | Category 1        |
| Reproductive toxicity | Category 2 Testes |

### 2.2 Label elements

**Signal word:**

**Hazard Statements**

**Precautionary Statements - Prevention**

**Precautionary Statements - Response**

**Skin**

**Precautionary Statements - Storage**

**Precautionary Statements - Disposal**

**Hazards not otherwise classified (HNOC)**

**Warning**

H317 - May cause an allergic skin reaction  
H361 - Suspected of damaging fertility or the unborn child if swallowed

P201 - Obtain special instructions before use. P202 - Do not handle until all safety precautions have been read and understood. P280 - Wear protective gloves/protective clothing and eye/face protection. P261 - Avoid breathing dust, fume, gas, mist, vapors, or spray. P272 - Contaminated work clothing should not be allowed out of the workplace. P280 - Wear protective gloves and protective clothing.

P308 + P313 - IF exposed or concerned: Get medical advice/attention. P362 + P364 - Take off all contaminated clothing and wash it before reuse.

P302 + P352 - IF ON SKIN: Wash with plenty of soap and water. P363 - Wash contaminated clothing before reuse. P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention.

P405 - Store locked up.

P501 - Dispose of contents/ container to an approved waste disposal plant.

Not applicable

### 2.3 Other information

**Other hazards**

May be harmful in contact with skin  
May be harmful if swallowed  
Very toxic to aquatic life  
Toxic to aquatic life with long lasting effects

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.1 Substances

Not applicable

#### 3.2 Mixture

##### Hazardous Components

| Chemical name      | CAS-No       | weight-% | US GHS Classification   | Notes |
|--------------------|--------------|----------|---|-------|
| Polyether compound | Confidential | 90-100   | Skin Sens. 1 (H317)   |       |
| Tricresylphosphate | 1330-78-5    | <1       | Acute Tox. 4 (H302)<br>Acute Tox. 4 (H312)<br>Reproductive 2 (H361)<br>Aquatic Acute 1 (H400)<br>Aquatic Chronic 1 (H410) |       |

If CAS number is "confidential", the specific chemical identity and percentage of composition has been withheld as a trade secret.

### 4. FIRST AID MEASURES

#### 4.1 First Aid Measures

|                            |  |
|----------------------------|--|
| General Advice             | If symptoms persist, call a physician. Take a copy of the Safety Data Sheet when going for medical treatment.  |
| Eye Contact                | Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If eye irritation persists: Get medical advice or attention. IF exposed or concerned: Get medical advice.   |
| Skin Contact               | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before re-use. Call a physician immediately.  |
| Inhalation                 | In case of inadequate ventilation wear respiratory protection. If breathing difficulties develop, move victim away from source of exposure and into fresh air in a position comfortable for breathing. If unconscious place in recovery position and seek medical advice. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Call a physician immediately. |
| Ingestion                  | Do not induce vomiting without medical advice. If vomiting occurs naturally, have casualty lean forward to reduce the risk of aspiration. Rinse mouth. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.   |
| Protection of First-aiders | Use personal protective equipment. Avoid contact with eyes, skin and clothing.   |

#### 4.2 Most important symptoms and effects, both acute and delayed

|          |                           |
|----------|---------------------------|
| Symptoms | No information available. |
|----------|---------------------------|

#### 4.3 Indication of any immediate medical attention and special treatment needed

|                    |                        |
|--------------------|------------------------|
| Notes to Physician | Treat symptomatically. |
|--------------------|------------------------|

### 5. FIRE-FIGHTING MEASURES

**Flammable Properties**

NFPA: Class IIIB Combustible Liquid

**5.1 Suitable Extinguishing Media:**

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment

**Unsuitable Extinguishing Media:**

Do not use a solid water stream as it may scatter and spread fire.

**5.2 Specific Hazards Arising from the Chemical**

Keep product and empty container away from heat and sources of ignition.

**Hazardous combustion products**

During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and / or irritating. Combustion products may include and are not limited to:  
Carbon oxides  
Nitrogen oxides (NOx)  
Oxides of Phosphorus

**5.3 Protective Equipment and Precautions for Firefighters:**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## **6. ACCIDENTAL RELEASE MEASURES**

**6.1 Personal precautions, protective equipment and emergency procedures**

**Personal precautions**

Avoid contact with eyes, skin and clothing. Avoid breathing vapors or mists. Use personal protection recommended in Section 8. Ensure adequate ventilation. Remove all sources of ignition.

**6.2. Environmental precautions**

**Environmental Precautions**

See section 12 for additional ecological information. Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do not allow into any sewer, on the ground or into any body of water. Do not flush into surface water or sanitary sewer system. Large Spills: Dike far ahead of liquid spill for later recovery and disposal. Prevent entry into waterways, sewers, basements or confined areas.

**6.3 Methods and material for containment and cleaning up**

**Methods for Clean-up**

Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

**Spill Management**

**LARGE SPILLS**

Eliminate sources of ignition. Prevent additional discharge of material if possible to do so without hazard. For small spills implement cleanup procedures; for large spills implement cleanup procedures and, if in public area, keep public away and advise authorities. Also, if this product is subject to CERCLA reporting (see Section 15 Regulatory Information) notify the National Response Center.

**WATER SPILLS**

Prevent liquid entering sewers, watercourses, or low areas. Contain spilled liquid with sand or earth. Recover by pumping or with suitable absorbent. If liquid is too viscous for pumping, scrape up. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.

## **7. HANDLING AND STORAGE**

**7.1. Precautions for safe handling**

**Handling**

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dusts or mists. Avoid contact with eyes, skin and clothing. Use personal protection recommended in the SDS. Wear protective gloves, protective clothing, eye protection, and face protection. Wash hands thoroughly after handling. Remove and wash contaminated clothing before re-use. Do not eat, drink or smoke when using this product. Should not be released into the environment.

**Safe Handling Advice**

Handle in accordance with good industrial hygiene and safety practices. Take precautionary measures against static discharges.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage**

Keep in properly labeled containers. Keep container tightly closed in a dry and well-ventilated place.

**Technical measures/Precautions**

Ensure adequate ventilation.

**Incompatible Materials and/or Coatings**

No information available

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

**8.1 Control Parameters**

**Exposure Guidelines**

This product does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

**8.2 Exposure controls**

**Appropriate engineering controls**

Ensure adequate ventilation, especially in confined areas. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

**Personal Protective Equipment**

**Eye/face protection**

Safety glasses equipped with side shields are recommended as minimum protection in industrial settings. If splashes are likely to occur wear tight fitting safety goggles and/or face-shield.

**Skin protection**

Wear protective gloves/clothing. Long sleeved clothing. Choose the appropriate protective clothing and gloves based on the tasks being performed to avoid exposed skin surfaces.  
**Glove Type:** Neoprene, Nitriles

**Respiratory protection**

If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.

**General Hygiene Considerations** Handle in accordance with good industrial hygiene and safety practices. Clean equipment, work area and clothing regularly.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1. Information on basic physical and chemical properties

|                               |                                   |
|-------------------------------|-----------------------------------|
| Appearance                    | Colorless                         |
| Physical state                | Liquid                            |
| Odor                          | Slight                            |
| Odor Threshold                | No information available          |
| pH                            | Not applicable                    |
| Melting point / melting range | Not applicable                    |
| Boiling point / boiling range | >= 230 °C / 446 °F                |
| Flash Point                   | 180 °C / 356 °F COC ASTM D92      |
| Evaporation Rate              | No information available          |
| Flammability Limit in Air     | No information available          |
| Explosion Limits              | No information available          |
| Vapor pressure @20 °C (kPa)   | No information available          |
| Vapor density                 | No information available          |
| Density                       | 0.98 g/cm <sup>3</sup> @15°C      |
| Solubility(ies)               | Insoluble in water                |
| Partition coefficient         | No information available          |
| Autoignition Temperature      | No information available          |
| Decomposing Temperature       | No information available          |
| Kinematic viscosity           | @40C=42.66 cSt; @100C = 9.512 cSt |

### 9.2. Other information

No additional information available

## 10. STABILITY AND REACTIVITY

### 10.1 Reactivity

**Reactivity** The product is chemically stable.

### 10.2 Chemical stability

**Chemical Stability** Stable under normal conditions.

### 10.3 Possibility of Hazardous Reactions

**Possibility of Hazardous Reactions** None under normal processing.

### 10.4 Conditions to avoid

**Conditions to Avoid** Heat, flames and sparks.

### 10.5 Incompatible materials

**Incompatible Materials** Strong oxidizing agents

### 10.6 Hazardous Decomposition Products

**Hazardous decomposition products** Thermal decomposition can lead to release of irritating gases and vapors.

## 11. TOXICOLOGICAL INFORMATION

### 11.1 Information on likely routes of exposure

|              |                                      |
|--------------|--------------------------------------|
| Inhalation   | May cause respiratory irritation.    |
| Eye contact  | May cause slight irritation.         |
| Skin Contact | May cause an allergic skin reaction. |
| Ingestion    | May be harmful if swallowed.         |

### 11.2 Information on toxicological effects

|          |                          |
|----------|--------------------------|
| Symptoms | No information available |
|----------|--------------------------|

### 11.3 Delayed and immediate effects as well as chronic effects from short and long-term exposure

|                                   |  |
|-----------------------------------|--|
| Skin corrosion/irritation         | Not classified.  |
| Serious eye damage/eye irritation | Not classified.  |
| Sensitization                     | May cause an allergic skin reaction. May cause sensitization of susceptible persons. |
| Mutagenic effects                 | Not classified.  |
| Reproductive Toxicity             | Suspected of damaging fertility or the unborn child if swallowed                     |
| STOT - single exposure            | Not classified.  |
| STOT - repeated exposure          | Not classified   |
| Aspiration hazard                 | Not classified.  |

### 11.4 Carcinogenicity

|                  |   |
|------------------|---|
| Carcinogenicity: | No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP, IARC or ACGIH |
|------------------|---|

|         |   |
|---------|---|
| Legend: | <i>NTP (National Toxicology Program), IARC (International Agency for Research on Cancer), OSHA (Occupational Safety and Health Administration of the US Department of Labor), ACGIH (American Conference of Governmental Industrial Hygienists)</i> |
|---------|---|

### 11.5 Acute Toxicity

The following values are calculated based on chapter 3.1 of the GHS document .

#### Product Information (Estimated):

|                 |               |
|-----------------|---------------|
| ATEmix (oral)   | > 2,000 mg/kg |
| ATEmix (dermal) | > 2,000 mg/kg |

| Chemical name                   | Oral LD50             | Dermal LD50              | Inhalation LC50 |
|---------------------------------|-----------------------|--------------------------|-----------------|
| Polyether compound              | >2000 mg/kg           | >2000 mg/kg              |                 |
| Tricresylphosphate<br>1330-78-5 | > 20000 mg/kg ( Rat ) | > 10000 mg/kg ( Rabbit ) | No Data         |

## 12. ECOLOGICAL INFORMATION

## 12.1 Ecotoxicity

### **Ecotoxicity effects**

Very toxic to aquatic life. Toxic to aquatic life with long lasting effects. Plants and animals may experience harmful or fatal effects when coated with petroleum products. Petroleum-based (mineral) lubricating oils normally will float on water. In stagnant or slow-flowing waterways, an oil layer can cover a large surface area. As a result, this oil layer might limit or eliminate natural atmospheric oxygen transport into the water. With time, if not removed, oxygen depletion in the waterway may be sufficient to cause a fish kill or create an anaerobic environment.

### **Unknown aquatic toxicity**

95.09 % of the mixture consists of component(s) of unknown hazards to the aquatic environment

## 12.2 Persistence and degradability

No information available.

## 12.3 Bioaccumulation/Accumulation

No information available.

## 12.4 Mobility in Environmental Media

No information available.

## 12.5 Other adverse effects:

No information available.

## PBT and vPvB assessment

This mixture contains substances considered to be very persistent and very bioaccumulating (vPvB) This mixture contains substances considered to be persistent, bioaccumulating and toxic (PBT)

## **13. DISPOSAL CONSIDERATIONS**

Hazard characteristic and regulatory waste stream classification can change with product use. Accordingly, it is the responsibility of the user to determine the proper storage, transportation, treatment and/or disposal methodologies for spent materials and residues at the time of disposition.

### **Waste Disposal Method**

This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements.

### **Contaminated packaging**

Dispose of in accordance with local regulations.

## **14. TRANSPORT INFORMATION**

### DOT

Not Regulated < 119 gallons
